

LiLAS - Living Labs for Academic Search

A workshop Lab @CLEF 2020

Philipp Schaer (TH Köln), Johann Schaible (GESIS), Bernd Müller (ZB MED)

Join us online: <https://clef-lilas.github.io>

General setting of LiLAS

More realistic
academic retrieval and
recommendation
evaluation

Evaluate within
academic **live search**
systems with **real users**

Living
Labs

Academic
Search

Partner web sites
from the **social**
sciences and **life**
sciences

More than paper
retrieval: **Data-set**
retrieval, **cross-language**
retrieval, **cross-content**
recommendations

Docker-based infrastructure

Roadmap

Workshop Lab

- bring together people
- lessons learned from earlier campaigns
- introduction to Docker platform

Evaluation Lab

- run participants rankers and recommenders
- evaluate different contexts and modalities

CLEF 2020

CLEF 2021

Why you should participate!

- 1 **Interesting data** (publications, research data,...)
- 2 **Interesting online scenario** (beyond TREC-style ...)
- 3 **Interesting technology** (Docker-based tech stack)
